

STC-HPS Breakfast meeting in Orlando, Florida

Contributed by: Latha Vasudevan, Ph.D., CHP, Chapter Past-President

The State of Texas Chapter of the Health Physics Society (STC-HPS) held its traditional breakfast meeting on July 9, 2019 at the Hilton Orlando Bistro during the 64th Annual Health Physics Society Conference. We had a good turnout including student members. The Chapter past president welcomed everyone, mentioned that the STCHPS is doing well and encouraged retention of membership in the Chapter. One of the student members briefly talked about the Texas A&M University student HPS Chapter. Several members came by to say hello but didn't stay for breakfast. A picture from the breakfast meeting is shown below.
