

Emergency Management Tools

Stan Bravenec, MS, CHMM

Assistant Radiation Safety Officer

Michael E. DeBakey Veterans Affairs Medical Center

Administrative Officer

VA Medical Emergency Radiological Response Team

Emergency Management Topics

- National Incident Management System (NIMS)
- Useful Tools for training and reference

National Response Framework (NRF)/National Incident Management System (NIMS)

- Presidential Directive HSPS-5
- All Federal Departments and Agencies required to adopt NIMS.
- Provides a consistent nationwide template to coordinate the response of Federal, State, Local Governments, Private Sector, and other entities to prepare for, prevent, respond to, and recover from domestic incidents.
- Includes core terminology, concepts, & principles

NIMS

Six Components

1. Command & Management
2. Preparedness
3. Resource Management
4. Communications and Information Management
5. Supporting Technologies
6. Ongoing Management & Maintenance

<http://www.fema.gov/emergency/nims/index.shtm>

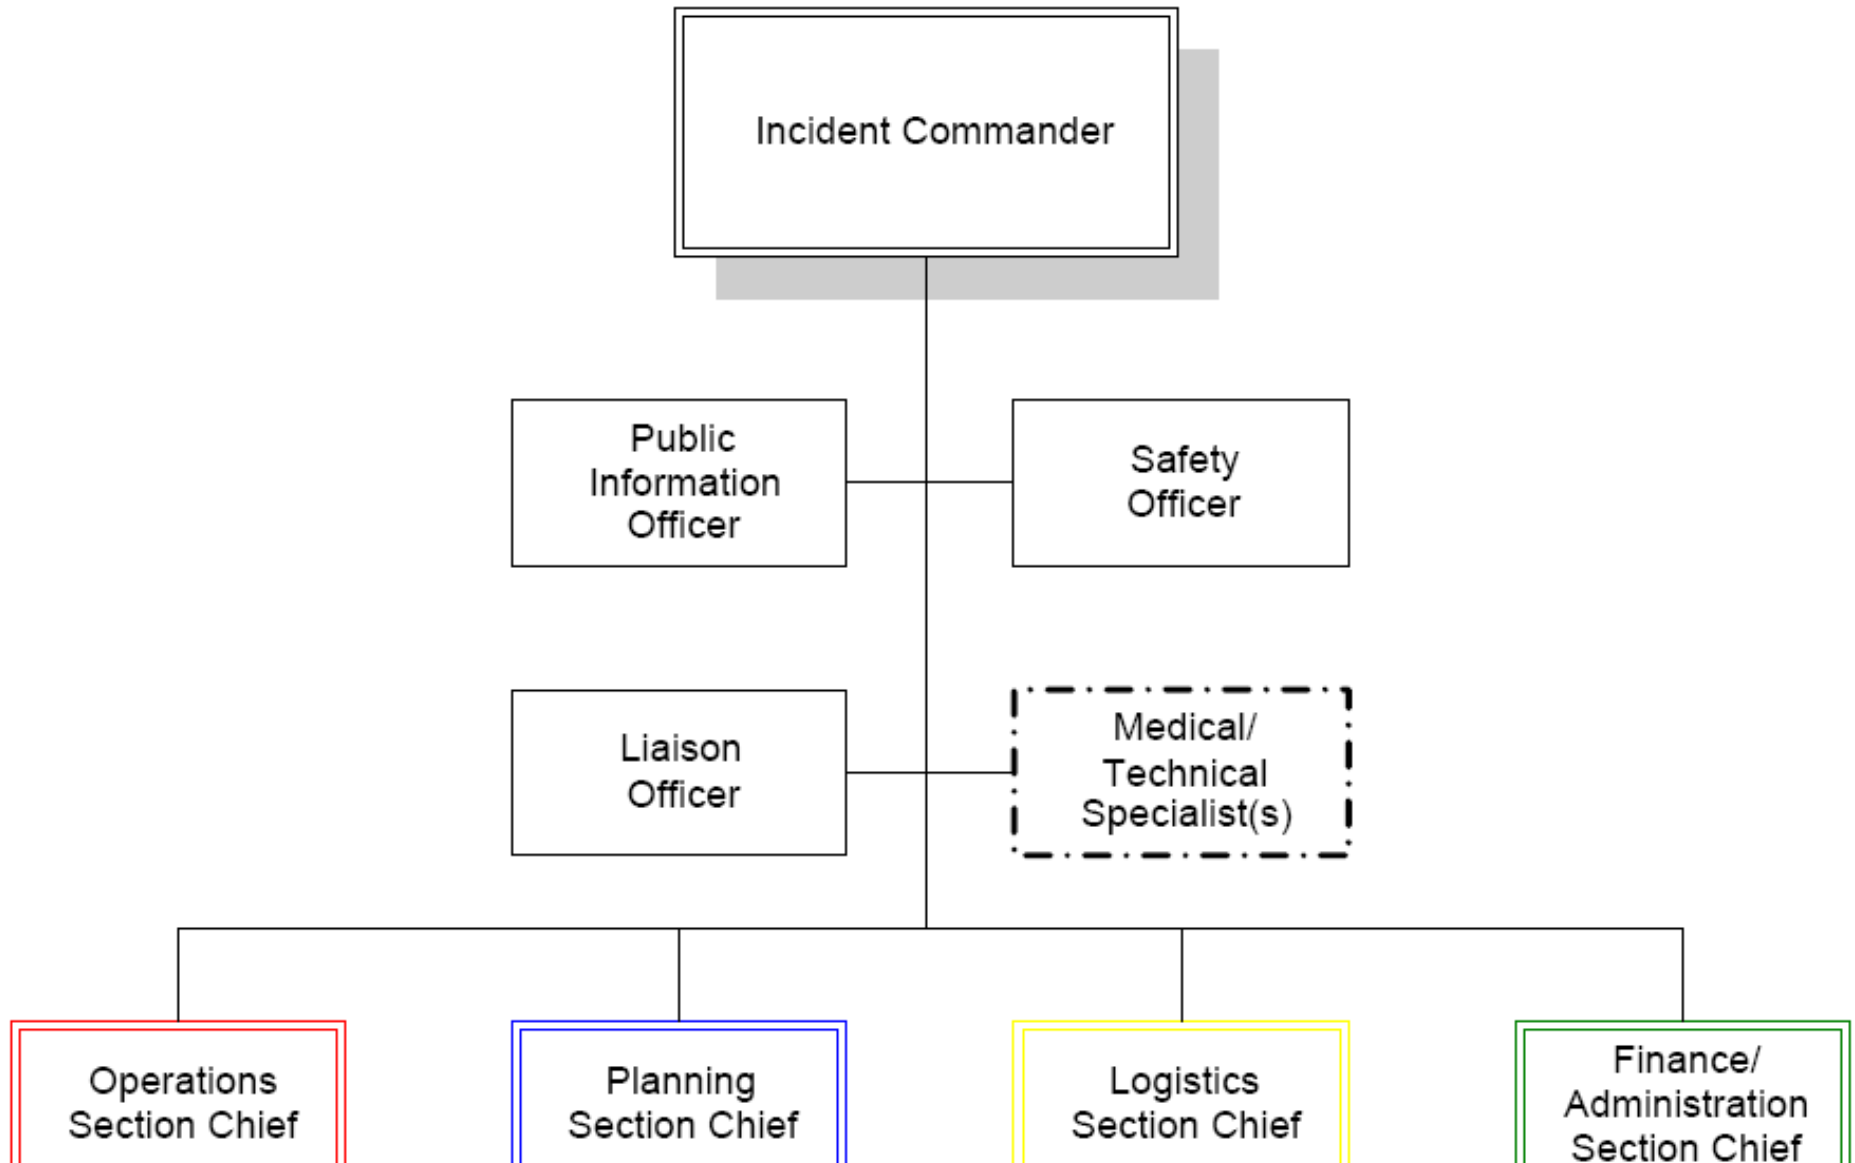

NIMS – Incident Command System

- Standardization and Flexibility
- Interactive Management Components
- Modular
- <http://www.emsa.ca.gov/hics/hics.asp>
 - Job Action Sheets
 - Exercise Scenarios

<http://www.osha.gov/SLTC/etools/ics/org.html>

Incident Command Structure
